HAMILTON, CANADA, WEDNESDAY, JANUARY 26 1916

SERBS IN ALBANIA WILL FIGHT AS LONG AS THEY GET FOOD -Britain Will See That Greece Gets Coal-Germans Blocked; Russians Win

BIG QUESTIONS UNDER FIRE IN BRITAIN NOW

Labor's Stand On Compulsion, and Blockade Question.

Serbs Only Want Food to Continue Struggle.

The position of the British Government on two matters of prime importance in the conduct of the war is to be determined as a result of proceedings under way to-day. The stittude of labor toward compulsary military service will be decided at the great conference to-day in Bristol. The debate on the question of a blockade of Germany is before the House of Commons.

many is before the House of Commons.

The Britsal conference is the most important of this kind ever held in England, representing more than 2,000,000 members of trades unions. The compulsory military service bill having passed the House of Commons and encountered little opposition in the House of Lords, the outcome of the long campaign on this issue will depend largely on the attitude of organised labor. Although grouposition to compulsion developed at the London labor conference, it is believed this feeling has died down to a considerable extent since that time.

The Austrian drive down the eastern coast of the Adriatic, having passed beyond the Montenegrin border, is move said to have resulted in the capture of an Albantan easport. San Giovanni di Medua.

The extension of Austrian influence southward along the Adriatic, but there are no indications that further measures to oppose the Teutonic forces are under way. It is said no slarm is felt in Rome for Avions, which has been occupied by Railan troops, or for Duresso, in the hands of Essad Pasha, provisional President of Albanis, who has east his lot with the Entente Allies.

DRINK-POVERTY

Let Us Look Across the Line and See the

Actual Conditions Under **Prohibition**

Only Facts Are Honest

The Citizens' Committee of One Hundred has made some startling statements of the amount of money that would be saved to the people of Ontario if Total Prohibition became law.

These rampant guesses of the Citizens' Committee, when placed against actual statistics

from States in the American Union where Prohibition has been in operation, will convince the public that the prohibitionists in their endeavor to make a case, draw from a wide field of imagination.

The Facts Are on Record

Why Does Not the Citizens' Committee of One **Hundred Quote Them?**

We are told that Liquor, sold under the License system of Government control, is Ontario's "Costly Foe that \$30,000,000 a year is wasted and that this money can be saved to the Province by abolishing the License system and adopting Total Prohibition.

Here Are the Facts

A comparison of the average savings in ten States under Prohibition with ten States under the Licensed System, is conclusive evidence that in the United States Prohibition has meant a decrease in savings, not an increase as the Citizens' Committee of One Hundred would have us believe.

Mounted Rifles Play Brants Here To-Night---Port Colborne Friday-

Crook Will Play Goal For Visitors on Friday Night-Postponed Game Must be Played at Port Colborne on Monday Night---Other Hockey Gossip.

The Mounted Riftes will finish up their hockey schedule this week and expect to break into the win column by taking the Brantford team into camp at the local Arean to-slight. So far the soldiers, have failed to win a game and only on one occasion did they come close, this being at Brantford on Friday, night last, when they held the Dykeville team to a one-point margin. With this in mind the soldiers are confident of taking to-night's game, and should they succeed in doing so it means the group championship for the Paris outfit. On Priday night the soldiers journey to Paris, but it is hardfy likely that they will win this game, as Paris is the better team and have had little difficulty in beating the local outfit on three other occasions this season. To night's game will be worth watching, meet and there are several little sores to be patched up.
